Introduction

The Parish Council wish to co-ordinate the Community response in the event of a serious emergency and therefore assist recovery. This plan aims to mobilise resources that already exist in Mottram St. Andrew to support residents should a catastrophe occur.

During an emergency it could be some time before responding organisations are able to offer assistance and by planning in advance your Parish Council wishes to provide key assistance in organising local response activities. We have identified the threats and hazards and have itemised the possible mitigation measures within the Community. We also wish to promote a network of communication within the area which will aim to keep residents informed.

Aims

The aim of the community plan is to increase short term community resilience in response to an emergency occurring in the local area.

Objectives

- To enable the community to respond effectively to an emergency that occurs in the local area.
- To identify resources and key contacts within the community that can assist the emergency services and local authority in the response to an emergency.
- To identify hazards and possible mitigation measures within the community.
- To identify vulnerable people within the community.
